## ○ WE ARE THE BIG FAMILY

---

Typically, students who studying aboard might face some challenges and difficulties as to exposure themselves to unaccustomed environment in foreign country. Fortunately, with good friendship, I have never found these experiences as challenges or difficulties. With my good friends, I have never felt lonely even though I live thousand miles away from my home. We celebrated new year in Shinjuku. I really enjoy this moment and It was lovely to celebrate the new year party as the big family. Moreover, we always have dinner together after class, and have small talk after we finished our dinner to share our story to each other. All of these combined, I have never found difficulties living and studying in Japan.

Thanks to Japan, JICA, give me knowledge to develop my country, and, of course, to dear friends to share our wonderful experience together. Indeed, our graduation is not bed of roses and it is long way to go but shoulder to shoulder as brother or sister, we go through challenges and difficulties together. I am absolutely sure, each one of us will never feel lonely on this path. Hoorah! Hoorah! Hoorah! MSP.
